What we are doing

- Enhanced cleaning – We have increased our cleaning and hygiene regimes and we will work throughout the day cleaning frequently touched surfaces such as door handles and toilets
- Hand Sanitiser/Cleaning Stations – We have provided hand sanitiser/cleaning stations around the Museum for your use
- Bins – We have provided lidded bins around the Museum. Please dispose of all tissues and rubbish in the bins provided.
- Perspex screens – We have installed Perspex screens in our reception
- Toilets – Our toilet facilities will be open and cleaned regularly throughout the day but we have closed certain toilets to ensure you are able to maintain social distancing. We will also be operating a one in, one out policy. Disabled and baby change facilities will be available
- Training – Our team have been fully trained on Government guidelines, especially social distancing and hygiene.
- Moving round the Museum – We have introduced a one-way system in smaller galleries and there will be signage and team members to help reinforce social distancing and to avoid queuing.
- Payments – Our preferred method of payment will be contactless, however we have introduced guidance to all staff to ensure they can safely handle cash payments also.
